

The Glasses Press

By Katie Meyerson

Save The Earth!

I know that many animals have gone extinct. But, Global Warming will flood a part of the earth. Also, Polar Bears will become extinct. If you ask Miss Marline a counselor at Hazel Avenue School will also give her, shall I say " ratings". If you care about our world don't litter. To help, start a club in your neighborhood or March at a parade or an event or even a traffic jam near you. You might think it will only affect States near the North and South Pole but it will affect everywhere! Only you can stop it.

Moving Notice:

Everyone who is friends with Megan, Claire, and Daniel Graham you have to get new friends because they're moving. I feel very strongly about it. I'll miss 'em. Megan said that she might vist me.

China

A poem of course by Katie Meyerson
China, beautiful flowers,
yummy food. Mmmmmmm.
Inspiring art,
I want to go now!

Music

By Katie of course
Music is love, music is hope, luck and re-
sponsibility. My whole family plays! I play
guitar my mom and dad play too. My sister
and mom play piano. Guitar is hard.

Mom & Dad

By Katie of course
I love my mom & dad and they love me
too. They are proud of me when necessary.
They feed me and clothe me. They teach
me new words.

Favorite Sports Of My Family

Soccer	Football	Baseball	Softball

Katie Interviews Her Sister Ellen About Global Warming

2

By of course Katie

Questions.

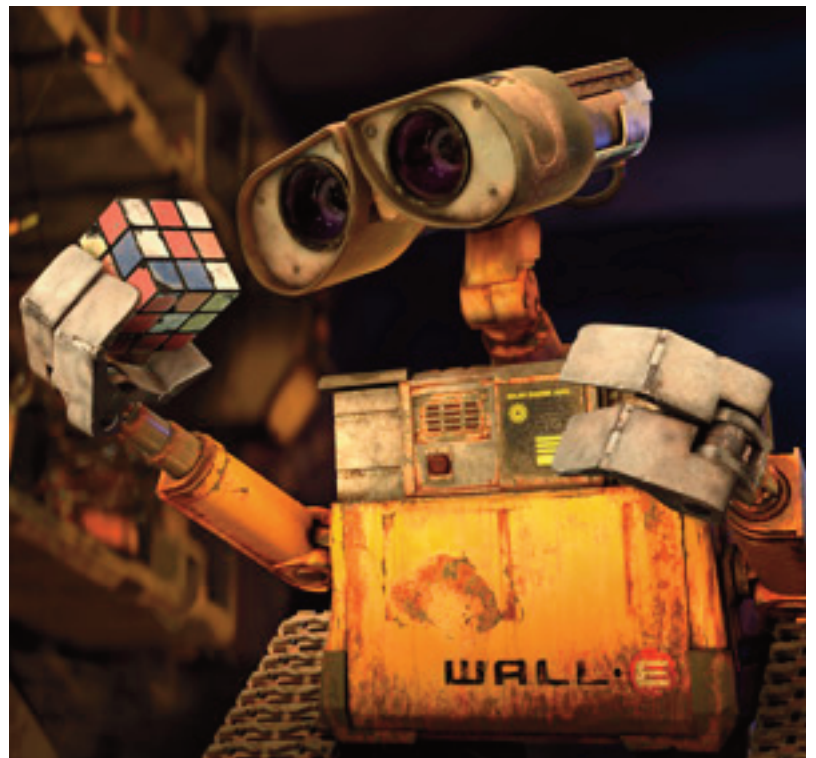

1. how do you think it will affect people in Argentina and Chile?
2. how do you plan to help fight global Warming?
3. when do you plan to start acting now or later?
4. will it affect people round the world?
5. if it does affect people round the world will we drown?

Answers:

1. flooding in southern parts and maybe droughts in the northern parts.
2. We can:
 - use fluorescent light bulbs
 - turn off lights when exiting a room
 - don't let the water run when brushing teeth
 - use canvas shopping bags instead of paper and plastic ones
 - use electronic cars
 - recycle regularly
 - turn the water off in the shower when putting in shampoo or conditioner.
3. I've already been acting!
4. yes, it will affect people all over.
5. hopefully we won't but if we don't drown we might be killed by some other cause.

Katie's "my" Review on Wall•e

Wall•e was romantic, funny movie! It is classified in my opinion as an entertaining family movie. Many people have already experienced the magic and fun of this family movie. Out of one to 100 I give this a 99. You can experience the fun and magic too. You will also see how people will turn out in seven hundred years, that is if we were not careful....it may be a little gross but hopefully it will surprise you enough to give you a hint to be careful. Hope you will watch it.

Remember children, parents, and seniors. Keep reading!
